THE CHRONICLES AND MEMORIALS

OF

GREAT BRITAIN AND IRELAND

DURING THE MIDDLE AGES.

PUBLISHED BY THE AUTHORITY OF HER MAJESTY'S TREASURY, UNDER THE DIRECTION OF THE MASTER OF THE ROLLS.

On the 26th of January 1857, the Master of the Rolls submitted to the Treasury a proposal for the publication of materials for the History of this Country from the Invasion of the Romans to the reign of Henry VIII.

The Master of the Rolls suggested that these materials should be selected for publication under competent editors without reference to periodical or chronological arrangement, without mutilation or abridgment, preference being given, in the first instance, to such materials as were most scarce and valuable.

He proposed that each chronicle or historical document to be edited should be treated in the same way as if the editor were engaged on an Editio Princeps; and for this purpose the most correct text should be formed from an accurate collation of the best MSS.

To render the work more generally useful, the Master of the Rolls suggested that the editor should give an account of the MSS. employed by him, of their age and their peculiarities; that he should add to the work a brief account of the life and times of the author, and any remarks necessary to explain the chronology; but no other note or comment was to be allowed, except what might be necessary to establish the correctness of the text.

The works to be published in octavo, separately, as they were finished; the whole responsibility of the task resting upon the editors, who were to be chosen by the Master of the Rolls with the sanction of the Treasury.

The Lords of Her Majesty's Treasury, after a careful consideration of the subject, expressed their opinion in a Treasury Minute, dated February 9, 1857, that the plan recommended by the Master of the Rolls "was well calculated for the accomplishment of this important national object, in an effectual and satisfactory manner, within a reasonable time, and provided proper attention be paid to economy, in making the detailed arrangements, without unnecessary expense."

They expressed their approbation of the proposal that each Chronicle and historical document should be edited in such a manner as to represent with all possible correctness the text of each writer, derived from a collation of the best MSS., and that no notes should be added, except such as were illustrative of the various readings. They suggested, however, that the preface to each work should contain, in addition to the particulars proposed by the Master of the Rolls, a biographical account of the author, so far as authentic materials existed for that purpose, and an estimate of his historical credibility and value.

Bod. 2726. 'For he ne bod,' which is the reading of the Cottonian and Harleian MSS.; the others have, 'hit 'nadde,' 'he hadde,' and 'hit had.' Similarly in the same story of Merlin the earlier version of Laȝamon has 'þe næuere fæder no ibæd,' while the latter reads 'þat neuere fader nadde.' On the other hand, in Laȝamon, 3609, where the earlier version reads, 'wel is him þe

Bod—*cont.*
hit habbe mot,' well is it with him that may have it, the later has, 'Wel his him þe hit bide mot.' Similarly, l. 19326, the earlier version has 'no biden ȝe nauere,' where the latter reads 'ne solle ȝeo neuere habbe.' It appears that 'biden,' which originally signifies 'to endure, suffer,' comes to mean 'to experience, have experience of,' and so to be almost equivalent to 'to have.'

Brutaske. 11095. From the O. Fr. *brutesche*, or *bretache*, which denotes an outwork of timber used in fortification, both for attack and defence. The word is probably of Teutonic origin (compare German, *brett.* a plank), and the root still exists in the mining term 'bratticing,' and according to Professor Skeat (Etymol. Dict.) in the word 'but-

CALENDARS OF STATE PAPERS, &c.

[Imperial 8vo., cloth. *Price* 15*s*. each Volume or Part.]

As far back as the year 1800, a Committee of the House of Commons recommended that Indexes and Calendars should be made to the Public Records, and thirty-six years afterwards another Committee of the House of Commons reiterated that recommendation in more forcible words; but it was not until the incorporation of the State Paper Office with the Public Record Office that the Master of the Rolls found himself in a position to take the necessary steps for carrying out the wishes of the House of Commons.

On 7 December 1855, he stated to the Lords of the Treasury that although "the Records, State Papers, and Documents in his charge constitute the most "complete and perfect series of their kind in the civilized world," and although "they are of the greatest value in a historical and constitutional point of view, "yet they are comparatively useless to the public, from the want of proper "Calendars and Indexes." Acting upon the recommendations of the Committees of the House of Commons above referred to, he suggested to the Lords of the Treasury that to effect the object he had in view it would be necessary for him to employ a few Persons fully qualified to perform the work which he contemplated.

Their Lordships assented to the necessity of having Calendars prepared and printed, and empowered the Master of the Rolls to take such steps as might be necessary for this purpose.

The following Works have been already published under the direction of the Master of the Rolls:—

Calendarium Genealogicum; for the Reigns of Henry III. and Edward I. *Edited by* Charles Roberts, Esq., Secretary of the Public Record Office, 2 Vols. 1865.

This is a work of great value for elucidating the early history of our nobility and landed gentry.

Calendar of State Papers, Domestic Series, of the Reigns of Edward VI., Mary, Elizabeth, and James I., preserved in Her Majesty's Public Record Office. *Edited by* Robert Lemon, Esq., F.S.A. (Vols. I. and II.), *and by* Mary Anne Everett Green, (Vols. III.–XII.). 1856–1872.

Vol. I.—1547–1580.
Vol. II.—1581–1590.
Vol. III.—1591–1594.
Vol. IV.—1595–1597.
Vol. V.—1598–1601.
Vol. VI.—1601–1603, with Addenda, 1547–1565.
Vol. VII.—Addenda, 1566–1579.
Vol. VIII.—1603–1610.
Vol. IX.—1611–1618.

Vol. XI.—1623–1625, with Addenda, 1603–1625.
Vol. XII.—Addenda, 1580–1625.

These Calendars render accessible to investigation a large and important mass of historical materials. The Northern Rebellion of 1566-67; the plots of the Catholic fugitives in the Low Countries; numerous designs against Queen Elizabeth and in favour of a Catholic succession; the Gunpowder-plot; the rise and fall of Somerset; the Overbury murder; the disgrace of Sir Edward

Coke; the rise of the Duke of Buckingham, &c., and numerous other subjects, few of which have been previously known.

THE CHRONICLES AND MEMORIALS OF GREAT BRITAIN AND IRELAND DURING THE MIDDLE AGES.

[Royal 8vo. half-bound. *Price* 10*s.* each Volume or Part.]

On 25 July 1822, the House of Commons presented an address to the Crown, stating that the editions of the works of our ancient historians were inconvenient and defective; that many of their writings still remained in manuscript, and, in some cases, in a single copy only. They added, "that an uniform and convenient edition of the whole, published under His Majesty's royal sanction, would be an undertaking honourable to His Majesty's reign, and conducive to the advancement of historical and constitutional knowledge; that the House therefore humbly besought His Majesty, that He would be graciously pleased to give such directions as His Majesty, in His wisdom, might think fit, for the publication of a complete edition of the ancient historians of this realm, and assured His Majesty that whatever expense might be necessary for this purpose would be made good."

The Master of the Rolls, being very desirous that effect should be given to the resolution of the House of Commons, submitted to Her Majesty's Treasury in 1857 a plan for the publication of the ancient chronicles and memorials of the United Kingdom, and it was adopted accordingly. In selecting these works, it was considered right, in the first instance, to give preference to those of which the manuscripts were unique, or the materials of which would help to fill up blanks in English history for which no satisfactory and authentic information hitherto existed in any accessible form. One great object the Master of the Rolls had in view was to form a *corpus historicum* within reasonable limits, and which should be as complete as possible. In a subject of so vast a range, it was important that the historical student should be able to select such volumes as conformed with his own peculiar tastes and studies, and not be put to the expense of purchasing the whole collection; an inconvenience inseparable from any other plan than that which has been in this instance adopted.

Of the Chronicles and Memorials, the following volumes have been published. They embrace the period from the earliest time of British history down to the end of the reign of Henry VII.

1. The Chronicle of England, by John Capgrave. *Edited by* the Rev. F. C. Hingeston, M.A., of Exeter College, Oxford. 1858.

   Capgrave was prior of Lynn, in Norfolk, and provincial of the order of the Friars Hermits of England shortly before the year 1464. His Chronicle extends from the creation of the world to the year 1417. As a record of the language spoken in Norfolk (being written in English), it is of considerable value.

2. Chronicon Monasterii de Abingdon. Vols. I. and II. *Edited by* the Rev. Joseph Stevenson, M.A., of University College, Durham, and Vicar of Leighton Buzzard. 1858.

   This Chronicle traces the history of the great Benedictine monastery of Abingdon in Berkshire, from its foundation by King Ina of Wessex, to the reign of Richard I., shortly after which period the present narrative was drawn up by an inmate of the establishment. The author had access to the title-deeds of the house; and incorporates into his history various charters of the Saxon kings, of great importance as illustrating not only the history of the locality but that of the kingdom. The work is printed for the first time.

3. Lives of Edward the Confessor. I.—La Estoire de Seint Aedward le Rei II.—Vita Beati Edvardi Regis et Confessoris. III.—Vita Æduuardi Regis qui apud Westmonasterium requiescit. *Edited by* Henry Richards Luard, M.A., Fellow and Assistant Tutor of Trinity College, Cambridge. 1858.

   The first is a poem in Norman French, containing 4,686 lines, addressed to Alianor, Queen of Henry III., probably written in 1245, on the restoration of the church of Westminster. Nothing is known of the author. The second is an anonymous poem, containing 536 lines, written between 1440 and 1450, by command of Henry VI., to whom it is dedicated. It does not throw any new light on the reign of Edward the Confessor, but is valuable as a specimen of the Latin poetry of the time. The third, also by an anonymous author, was apparently written for Queen Edith, between 1066 and 1074, during the pressure of the suffering brought on the Saxons by the Norman conquest. It notices many facts not found in other writers, and some which differ considerably from the usual accounts.

4. Monumenta Franciscana. Vol. I.—Thomas de Eccleston de Adventu Fratrum Minorum in Angliam. Adæ de Marisco Epistolæ. Registrum Fratrum Minorum Londoniæ. *Edited by* J. S. Brewer, M.A., Professor of English Literature, King's College, London. Vol. II.—De Adventu Minorum; re-edited, with additions. Chronicle of the Grey Friars. The ancient English version of the Rule of St. Francis. Abbreviatio Statutorum, 1451, &c. *Edited by* Richard Howlett, Esq., of the Middle Temple, Barrister-at-Law. 1858, 1882.

   The first volume contains original materials for the history of the settlement of the order of Saint Francis in England, the letters of Adam de Marisco, and other papers connected with the foundation and diffusion of this great body. It was the aim of the editor to collect whatever historical information could be found in this country, towards illustrating a period of the national history for which only scanty materials exist. None of these have been before printed. The second volume contains materials found, since the first volume was published, among the MSS. of Sir Charles Isham, and in various libraries.

5. Fasciculi Zizaniorum Magistri Johannis Wyclif cum Tritico. Ascribed to Thomas Netter, of Walden, Provincial of the Carmelite Order in England, and Confessor to King Henry the Fifth. *Edited by* the Rev. W. W. Shirley, M.A., Tutor and late Fellow of Wadham College, Oxford. 1858.

   This work derives its principal value from being the only contemporaneous account of the rise of the Lollards. When written, the disputes of the schoolmen had been extended to the field of theology, and they appear both in the writings of Wycliff and in those of his adversaries. Wycliff's little bundles of tares are not less metaphysical than theological, and the conflict between Nominalists and Realists rages side by side with the conflict between the different interpreters of Scripture. The work gives a good idea of the controversies at the end of the 14th and the beginning of the 15th centuries.

6. The Buik of the Croniclis of Scotland; or, A Metrical Version of the History of Hector Boece; by William Stewart. Vols. I., II., and III. *Edited by* W. B. Turnbull, Esq., of Lincoln's Inn, Barrister-at-Law, 1858.

   This is a metrical translation of a Latin Prose Chronicle, written in the first half of the 16th century. The narrative begins with the earliest legends and ends with the death of James I. of Scotland, and the "evil ending of the traitors that slew him." Strict accuracy of statement is not to be looked for; but the stories of the colonization of Spain, Ireland, and Scotland are interesting if not true; and the chronicle reflects the manners, sentiments, and character of the age in which it was composed. The peculiarities of the Scottish dialect are well illustrated in this version, and the student of language will find ample materials for comparison with the English dialects of the same period, and with modern lowland Scotch.

7. Johannis Cabgrave Liber de Illustribus Henricis. *Edited by* the Rev. F. C. Hingeston, M.A., of Exeter College, Oxford. 1858.

This work is dedicated to Henry VI. of England, who appears to have been, in the author's estimation, the greatest of all the Henries. It is divided into three parts, each having a separate dedication. The first part relates only to the history of the Empire, from the election of Henry I., the Fowler, to the end of the reign of the Emperor Henry VI. The second part is devoted to English history, from the accession of Henry I. in 1100, to 1446, which was the twenty-fourth year of the reign of Henry VI. The third part contains the lives of illustrious men who have borne the name of Henry in various parts of the world. Capgrave was borne in 1393, in the reign of Richard II., and lived during the Wars of the Roses, for which period his work is of some value.

8. Historia Monasterii S. Augustini Cantuariensis, by Thomas of Elmham, formerly Monk and Treasurer of that Foundation. *Edited by* Charles Hardwick, M.A., Fellow of St. Catharine's Hall, and Christian Advocate in the University of Cambridge. 1858.

This history extends from the arrival of St. Augustine in Kent until 1191. Prefixed is a chronology as far as 1418, which shows in outline what was to have been the character of the work when completed. The only copy known is in the possession of Trinity Hall, Cambridge. The author was connected with Norfolk, and most probably with Elmham, whence he derived his name.

9. Eulogium (Historiarum sive Temporis): Chronicon ab Orbe condito usque ad Annum Domini 1366; a Monacho quodam Malmesbiriensi exaratum. Vols. I., II., and III. *Edited by* F. S. Haydon, Esq., B.A. 1858–1863.

This is a Latin Chronicle extending from the Creation to the latter part of the reign of Edward III., and written by a monk of the Abbey of Malmesbury, in Wiltshire, about the year 1367. A continuation, carrying the history of England down to the year 1413, was added in the former half of the fifteenth century by an author whose name is not known. The original Chronicle is divided into five books, and contains a history of the world generally, but more especially of England to the year 1366. The continuation extends the history down to the coronation of Henry V. The Eulogium itself is chiefly valuable as containing a history, by a contemporary, of the period between 1356 and 1366. The notices of events appear to have been written very soon after their occurrence. Among other interesting matter, the Chronicle contains a diary of the Poitiers campaign, evidently furnished by some person who accompanied the army of the Black Prince. The continuation of the Chronicle is also the work of a contemporary, and gives a very interesting account of the reigns of Richard II. and Henry IV. It is believed to be the earliest authority for the statement that the latter monarch died in the Jerusalem Chamber at Westminster.

10. Memorials of Henry the Seventh: Bernardi Andreæ Tholosatis Vita Regis Henrici Septimi; necnon alia quædam ad eundem Regem spectantia. *Edited by* James Gairdner, Esq. 1858.

The contents of this volume are—(1) a life of Henry VII., by his poet laureate and historiographer, Bernard André, of Toulouse, with some compositions in verse, of which he is supposed to have been the author; (2) the journals of Roger Machado during certain embassies on which he was sent by Henry VII. to Spain and Brittany, the first of which had reference to the marriage of the King's son, Arthur, with Catharine of Arragon; (3) two curious reports by envoys sent to Spain in 1505 touching the succession to the Crown of Castile, and a project of marriage between Henry VII. and the Queen of Naples; and (4) an account of Philip of Castile's reception in England in 1506. Other documents of interest are given in an appendix.

11. Memorials of Henry the Fifth. I.—Vita Henrici Quinti, Roberto Redmanno auctore. II.—Versus Rhythmici in laudem Regis Henrici Quinti. III.—Elmhami Liber Metricus de Henrico V. *Edited by* Charles A. Cole, Esq. 1858.

This volume contains three treatises which more or less illustrate the history of the reign of Henry V., viz.: A life by Robert Redman; a Metrical Chronicle by Thomas Elmham, prior of Lenton, a contemporary author; Versus Rhythmici, written apparently by a monk of Westminster Abbey, who was also a contemporary of Henry V. These works are printed for the first time.

12. Munimenta Gildhallæ Londoniensis; Liber Albus, Liber Custumarum, et Liber Horn, in archivis Gildhallæ asservati. Vol. I., Liber Albus. Vol. II. (in Two Parts), Liber Custumarum. Vol. III., Translation of the Anglo-Norman Passages in Liber Albus, Glossaries, Appendices, and Index. *Edited by* Henry Thomas Riley, Esq., M.A., Barrister-at-Law. 1859–1862.

The manuscript of the *Liber Albus*, compiled by John Carpenter, Common Clerk of the City of London in the year 1419, a large folio volume, is preserved in the Record Room of the City of London. It gives an account of the laws, regulations, and institutions of that City in the 12th, 13th, 14th, and early part of the 15th centuries. The *Liber Custumarum* was compiled probably by various hands in the early part of the 14th century during the reign of Edward II. The manuscript, a folio volume, is also preserved in the Record Room of the City of London, though some portion in its original state, borrowed from the City in the reign of Queen Elizabeth and never returned, forms part of the Cottonian MS. Claudius D. II. in the British Museum. It also gives an account of the laws, regulations, and institutions of the City of London in the 12th, 13th, and early part of the 14th centuries.

13. Chronica Johannis de Oxenedes. *Edited by* Sir Henry Ellis, K.H. 1859.

Although this Chronicle tells of the arrival of Hengist and Horsa in England in 449, yet it substantially begins with the reign of King Alfred, and comes down to 1292, where it ends abruptly. The history is particularly valuable for notices of events in the eastern portions of the Kingdom, not to be elsewhere obtained. Some curious facts are mentioned relative to the floods in that part of England, which are confirmed in the Friesland Chronicle of Anthony Heinrich, pastor of the Island of Mohr.

14. A Collection of Political Poems and Songs relating to English History, from the Accession of Edward III. to the Reign of Henry VIII. Vols. I. and II. *Edited by* Thomas Wright, Esq., M.A. 1859–1861.

These Poems are perhaps the most interesting of all the historical writings of the period, though they cannot be relied on for accuracy of statement. They are various in character; some are upon religious subjects, some may be called satires, and some give no more than a court scandal; but as a whole they present a very fair picture of society, and of the relations of the different classes to one another. The period comprised is in itself interesting, and brings us through the decline of the feudal system, to the beginning of our modern history. The songs in old English are of considerable value to the philologist.

15. The "Opus Tertium," "Opus Minus," &c., of Roger Bacon. *Edited by* J. S. Brewer, M.A., Professor of English Literature, King's College, London. 1859.

This is the celebrated treatise—never before printed—so frequently referred to by the great philosopher in his works. It contains the fullest details we possess of the life and labours of Roger Bacon: also a fragment by the same author, supposed to be unique, the "*Compendium Studii Theologiæ.*"

16. Bartholomæi de Cotton, Monachi Norwicensis, Historia Anglicana; 449–1298: necnon ejusdem Liber de Achiepiscopis et Episcopis Angliæ. *Edited by* Henry Richards Luard, M.A., Fellow and Assistant Tutor of Trinity College, Cambridge. 1859.

The author, a monk of Norwich, has here given us a Chronicle of England from the arrival of the Saxons in 449 to the year 1298, in or about which year it appears that he died. The latter portion of this history (the whole of the reign of Edward I. more especially) is of great value, as the writer was contemporary with the events which he records. An Appendix contains several illustrative documents connected with the previous narrative.

17. Brut y Tywysogion; or, The Chronicle of the Princes of Wales. *Edited by* the Rev. John Williams ab Ithel, M.A. 1860.

This work, also known as "The Chronicle of the Princes of Wales," has been attributed to Caradoc of Llancarvan, who flourished about the middle of the twelfth century. It is written in the ancient Welsh language, begins with the abdication and death of Caedwala at Rome, in the year 681, and continues the history down to the subjugation of Wales by Edward I., about the year 1282.

18. A Collection of Royal and Historical Letters during the Reign of Henry IV. 1399–1404. *Edited by* the Rev. F. C. Hingeston, M.A., of Exeter College, Oxford. 1860.

This volume, like all the others in the series containing a miscellaneous selection of letters, is valuable on account of the light it throws upon biographical history, and the familiar view it presents of characters, manners, and events. The period requires much elucidation; to which it will materially contribute.

19. The Repressor of over much Blaming of the Clergy. By Reginald Pecock, sometime Bishop of Chichester. Vols. I. and II. *Edited by* Churchill Babington, B.D., Fellow of St. John's College, Cambridge. 1860.

The "Repressor" may be considered the earliest piece of good theological disquisition of which our English prose literature can boast. The author was born about the end of the fourteenth century, consecrated Bishop of St. Asaph in the year 1444, and translated to the see of Chichester in 1450. While Bishop of St. Asaph, he zealously defended his brother prelates from the attacks of those who censured the bishops for their neglect of duty. He maintained that it was no part of a bishop's functions to appear in the pulpit, and that his time might be more profitably spent, and his dignity better maintained, in the performance of works of a higher character. Among those who thought differently were the Lollards, and against their general doctrines the "Repressor" is directed. Pecock took up a position midway between that of the Roman Church and that of the modern Anglican Church; but his work is interesting chiefly because it gives a full account of the views of the Lollards and of the arguments by which they were supported, and because it assists us to ascertain the state of feeling which ultimately led to the Reformation. Apart from religious matters, the light thrown upon contemporaneous history is very small, but the "Repressor" has great value for the philologist, as it tells us what were the characteristics of the language in use among the cultivated Englishmen of the fifteenth century. Pecock, though an opponent of the Lollards, showed a certain spirit of toleration, for which he received, towards the end of his life, the usual mediæval reward—persecution.

20. Annales Cambriæ. *Edited by* the Rev. John Williams ab Ithel, M.A. 1860.

These annals, which are in Latin, commence in 447, and come down to 1288. The earlier portion appears to be taken from an Irish Chronicle, used by Tigernach, and by the compiler of the Annals of Ulster. During its first century it contains scarcely anything relating to Britain, the earliest direct concurrence with English history is relative to the mission of Augustine. Its notices throughout, though brief, are valuable. The annals were probably written at St. Davids, by Blegewryd, Archdeacon of Llandaff, the most learned man in his day in all Cymru.

21. The Works of Giraldus Cambrensis. Vols. I., II., III., and IV. *Edited by* J. S. Brewer, M.A., Professor of English Literature, King's College, London. Vols. V., VI., and VII. *Edited by* the Rev. James F. Dimock, M.A., Rector of Barnburgh, Yorkshire. 1861–1877.

These volumes contain the historical works of Geraid du Barry, who lived in the reigns of Henry II., Richard I., and John, and attempted to re-establish the independence of Wales by restoring the see of St. Davids to its ancient primacy. His works are of a very miscellaneous nature, both in prose and verse, and are remarkable chiefly for the racy and original anecdotes which they contain relating to contemporaries. He is the only Welsh writer of any importance who has contributed so much to the mediæval literature of this country, or assumed, in consequence of his nationality, so free and independent a tone. His frequent travels in Italy, in France, in Ireland, and in Wales, gave him opportunities for observation which did not generally fall to the lot of mediæval writers in the twelfth and thirteenth centuries, and of these observations Giraldus has made due use. Only extracts from these treatises have been printed before and almost all of them are taken from unique manuscripts.

The Topographia Hibernica (in Vol. V.) is the result of Giraldus' two visits to Ireland. The first in 1183, the second in 1185–6, when he accompanied Prince John into that country. Curious as this treatise is, Mr. Dimock is of opinion that it ought not to be accepted as sober truthful history, for Giraldus himself states that truth was not his main object, and that he compiled the work for the purpose of sounding the praises of Henry the Second. Elsewhere, however, he declares that he had stated nothing in the Topographia of the truth of which he was not well assured, either by his own eyesight or by the testimony, with all diligence elicited, of the most trustworthy and authentic men in the country; that though he did not put just the same full faith in their reports as in what he had himself seen, yet, as they only related what they had themselves seen, he could not but believe such credible witnesses. A very interesting portion of this treatise is devoted to the animals of Ireland. It shows that he was a very accurate and acute observer, and his descriptions are given in a way that a scientific naturalist of the present day could hardly improve upon. The Expugnatio Hibernica was written about 1188 and may be regarded rather as a great epic than a sober relation of acts occurring in his own days. No one can peruse it without coming to the conclusion that it is rather a poetical fiction than a prosaic truthful history. Vol. VI. contains the Itinerarium Kambriæ et Descriptio Kambriæ: and Vol. VII., the lives of S. Re migius and S. Hugh.

22. Letters and Papers illustrative of the Wars of the English in France during the Reign of Henry the Sixth, King of England. Vol. I., and Vol. II. (in Two Parts). *Edited by* the Rev. Joseph Stevenson, M.A., of University College, Durham, and Vicar of Leighton Buzzard. 1861–1864.

These letters and papers are derived chiefly from originals or contemporary copies extant in the Bibliothèque Impériale, and the Depôt des Archives, in Paris. They illustrate the policy adopted by John Duke of Bedford and his successors during their government of Normandy, and other provinces of France acquired by Henry V. Here may be traced, step by step, the gradual declension of the English power, until we are prepared for its final overthrow.

23. The Anglo-Saxon Chronicle, according to the several Original Authorities. Vol. I., Original Texts. Vol. II., Translation. *Edited and translated by* Benjamin Thorpe, Esq., Member of the Royal Academy of Sciences at Munich, and of the Society of Netherlandish Literature at Leyden. 1861.

This Chronicle, extending from the earliest history of Britain to 1154, is justly the boast of England; no other nation can produce any history, written in its own vernacular, at all approaching it, in antiquity, truthfulness, or extent, the historical books of the Bible alone excepted. There are at present six independent manuscripts of the Saxon Chronicle, ending in different years, and written in different parts of the country. In this edition, the text of each manuscript is printed in columns on the same page, so that the student may see at a glance the various changes which occur in orthography, whether arising from locality or age.

24. Letters and Papers illustrative of the Reigns of Richard III. and Henry VII. Vols. I. and II. *Edited by* James Gairdner, Esq. 1861–1863.

The Papers are derived from the MSS. in Public Record Office, the British Museum, and other repositories. The period to which they refer is unusually destitute of chronicles and other sources of historical information, so that the light obtained from them is of special importance. The principal contents of the volumes are some diplomatic Papers of Richard III.; correspondence between Henry VII. and Ferdinand and Isabella of Spain; documents relating to Edmund de la Pole, Earl of Suffolk; and a portion of the correspondence of James IV. of Scotland.

25. Letters of Bishop Grosseteste, illustrative of the Social Condition of his Time. *Edited by* Henry Richards Luard, M.A., Fellow and Assistant Tutor of Trinity College, Cambridge. 1861.

The Letters of Robert Grosseteste (131 in number) are here collected from various sources, and a large portion of them is printed for the first time. They range in

date from about 1210 to 1253, and relate to various matters connected not only with the political history of England during the reign of Henry III., but with its ecclesiastical condition. They refer especially to the diocese of Lincoln, of which Grosseteste was bishop.

26. Descriptive Catalogue of Manuscripts relating to the History of Great Britain and Ireland. Vol. I. (in Two Parts); Anterior to the Norman Invasion. Vol. II.; 1066-1200. Vol. III.; 1200-1327. *By* Sir Thomas Duffus Hardy, D.C.L., Deputy Keeper of the Public Records. 1862-1871.

The object of this work is to publish notices of all known sources of British history, both printed and unprinted, in one continued sequence. The materials, when historical (as distinguished from biographical), are arranged under the year in which the latest event is recorded in the chronicle or history, and not under the period in which its author, real or supposed, flourished. Biographies are enumerated under the year in which the person commemorated died, and not under the year in which the life was written. This arrangement has two advantages; the materials for any given period may be seen at a glance; and if the reader knows the time when an author wrote, and the number of years that had elapsed between the date of the events and the time the writer flourished, he will generally be enabled to form a fair estimate of the comparative value of the narrative itself. A brief analysis of each work has been added when deserving it, in which original portions are distinguished from mere compilations. If possible, the sources are indicated from which compilations have been derived. A biographical sketch of the author of each piece has been added, and a brief notice of such British authors as have written on historical subjects.

27. Royal and other Historical Letters illustrative of the Reign of Henry III. Vol. I., 1216-1235. Vol. II., 1236-1272. *Selected and edited by* the Rev. W. W. Shirley, D.D., Regius Professor in Ecclesiastical History, and Canon of Christ Church, Oxford. 1862-1866.

The letters contained in these volumes are derived chiefly from the ancient correspondence formerly in the Tower of London, and now in the Public Record Office. They illustrate the political history of England during the growth of its liberties, and throw considerable light upon the personal history of Simon de Montfort. The affairs of France form the subject of many of them, especially in regard to the province of Gascony. The entire collection consists of nearly 700 documents, the greater portion of which is printed for the first time.

28. Chronica Monasterii S. Albani.—1. Thomæ Walsingham Historia Anglicana; Vol. I., 1272-1381: Vol. II., 1381-1422. 2. Willelmi Rishanger Chronica et Annales, 1259-1307. 3. Johannis de Trokelowe et Henrici de Blaneforde Chronica et Annales, 1259-1296; 1307-1324; 1392-1406. 4. Gesta Abbatum Monasterii S. Albani, a Thoma Walsingham, regnante Ricardo Secundo, ejusdem Ecclesiæ Præcentore, compilata; Vol. I., 793-1290: Vol. II., 1290-1349: Vol. III., 1349-1411. 5. Johannis Amundesham, Monachi Monasterii S. Albani, ut videtur, Annales; Vols. I. and II. 6. Registra quorundam Abbatum Monasterii S. Albani, qui sæculo xv^mo^ floruere; Vol. I., Registrum Abbatiæ Johannis Whethamstede, Abbatis Monasterii Sancti Albani, iterum susceptæ; Roberto Blakeney, Capellano, quondam adscriptum: Vol. II., Registra Johannis Whethamstede, Willelmi Albon, et Willelmi Walingforde, Abbatum Monasterii Sancti Albani, cum Appendice, continente quasdam Epistolas, a Johanne Whethamstede Conscriptas. 7. Ypodigma Neustriæ a Thoma Walsingham, quondam Monacho Monasterii S. Albani, conscriptum. *Edited by* Henry Thomas Riley, Esq., M.A., Cambridge and Oxford; and of the Inner Temple, Barrister-at-Law. 1863-1876.

In the first two volumes is a History of England, from the death of Henry III. to the death of Henry V., by Thomas Walsingham, Precentor of St. Albans, from MS. VII. in the Arundel Collection in the College of Arms, London, a manuscript of the fifteenth century, collated with MS. 13 E. IX. in the King's Library in the British Museum, and MS. VII. in the Parker Collection of Manuscripts at Corpus Christi College, Cambridge.

In the 3rd volume is a Chronicle of English History, attributed to William Rishanger, who lived in the reign of Edward I., from the Cotton MS. Faustina B. IX. in the British Museum, collated with MS. 14 C. VII. (fols. 219–231) in the King's Library, British Museum, and the Cotton MS. Claudius E. III. fols. 306–331 : an account of transactions attending the award of the kingdom of Scotland to John Balliol, 1291–1292, from MS. Cotton. Claudius D. VI., also attributed to William Rishanger, but on no sufficient ground : a short Chronicle of English History, 1292 to 1300, by an unknown hand, from MS. Cotton. Claudius D. VI. : a short Chronicle Willelmi Rishanger Gesta Edwardi Primi, Regis Angliæ, from MS. 14 C. I. in the Royal Library, and MS. Cotton. Claudius D. VI., with Annales Regum Angliæ, probably by the same hand : and fragments of three Chronicles of English History, 1285 to 1307.

In the 4th volume is a Chronicle of English History, 1259 to 1296, from MS. Cotton. Claudius D. VI. : Annals of Edward II., 1307 to 1323, by John de Trokelowe, a monk of St. Albans, and a continuation of Trokelowe's Annals, 1323, 1324, by Henry de Blaneforde, both from MS. Cotton. Claudius D. VI. : a full Chronicle of English History, 1392 to 1406, from MS. VII. in the Library of Corpus Christi College, Cambridge; and an account of the Benefactors of St. Albans, written in the early part of the 15th century from MS. VI. in the same Library.

The 5th, 6th, and 7th volumes contain a history of the Abbots of St. Albans, 793 to 1411, mainly compiled by Thomas Walsingham, from MS. Cotton. Claudius E. IV., in the British Museum : with a Continuation, from the closing pages of Parker MS. VII., in the Library of Corpus Christi College, Cambridge.

The 8th and 9th volumes, in continuation of the Annals, contain a Chronicle, probably by John Amundesham, a monk of St. Albans.

The 10th and 11th volumes relate especially to the acts and proceedings of Abbots Whethamstede, Albon, and Wallingford, and may be considered as a memorial of the chief historical and domestic events during those periods.

The 12th volume contains a compendious History of England to the reign of Henry V., and of Normandy in early times, also by Thomas Walsingham, and dedicated to Henry V. The compiler has often substituted other authorities in place of those consulted in the preparation of his larger work.

29. Chronicon Abbatiæ Eveshamensis, Auctoribus Dominico Priore Eveshamiæ et Thoma de Marleberge Abbate, a Fundatione ad Annum 1213, una cum Continuatione ad Annum 1418. *Edited by* the Rev. W. D. Macray, Bodleian Library, Oxford. 1863.

The Chronicle of Evesham illustrates the history of that important monastery from its foundation by Egwin, about 690, to the year 1418. Its chief feature is an autobiography, which makes us acquainted with the inner daily life of a great abbey, such as but rarely has been recorded. Interspersed are many notices of general, personal, and local history which will be read with much interest. This work exists in a single MS., and is for the first time printed.

30. Ricardi de Cirencestria Speculum Historiale de Gestis Regum Angliæ. Vol. I., 447–871. Vol. II., 872–1066. *Edited by* John E. B. Mayor, M.A., Fellow of St. John's College, Cambridge. 1863–1869.

The compiler, Richard of Cirencester, was a monk of Westminster, 1355–1400. In 1391 he obtained a licence to make a pilgrimage to Rome. His history, in four books, extends from 447 to 1066. He announces his intention of continuing it, but there is no evidence that he completed any more. This chronicle gives many charters in favour of Westminster Abbey, and a very full account of the lives and miracles of the saints, especially of Edward the Confessor, whose reign occupies the fourth book. A treatise on the Coronation, by William of Sudbury, a monk of Westminster, fills book iii. c. 3. It was on this author that C. J. Bertram fathered his forgery, *De Situ Brittaniæ*, in 1747.

31. Year Books of the Reign of Edward the First. Years 20–21, 21–22, 30–31, 32–33, and 33–35 Edw. I.; and 11–12 Edw. III. *Edited and translated by* Alfred John Horwood, Esq., of the Middle Temple, Barrister-

at-Law. Years 12–13, 13–14 Edward III. *Edited and translated by* Luke Owen Pike, Esq., M.A., of Lincoln's Inn, Barrister-at-Law. 1863–1886.

The volumes known as the "Year Books" contain reports in Norman-French of Cases argued and decided in the Courts of Common Law. They may be considered to a great extent as the "lex non scripta" of England, held in the highest veneration by the ancient sages of the law, and received by them as the repositories of the first recorded judgments and dicta of the great legal luminaries of past ages. They are also worthy of attention on account of the historical information and the notices of public and private persons which they contain, as well as the light which they throw on ancient manners and customs.

32. Narratives of the Expulsion of the English from Normandy 1449–1450. —Robertus Blondelli de Reductione Normanniæ: Le Recouvrement de Normendie, par Berry, Hérault du Roy: Conferences between the Ambassadors of France and England. *Edited, from MSS. in the Imperial Library at Paris, by* the Rev. Joseph Stevenson, M.A., of University College, Durham. 1863.

This volume contains the narrative of an eye-witness who details with considerable power and minuteness the circumstances which attended the final expulsion of the English from Normandy in 1450. Commencing with the infringement of the truce by the capture of Fougères, and ending with the battle of Formigny and the embarkation of the Duke of Somerset. The period embraced is less than two years.

33. Historia et Cartularium Monasterii S. Petri Gloucestriæ. Vols. I., II., and III. *Edited by* W. H. Hart, Esq., F.S.A., Membre correspondant de la Société des Antiquaires de Normandie. 1863–1867.

This work consists of two parts, the History and the Cartulary of the Monastery of St. Peter, Gloucester. The history furnishes an account of the monastery from its foundation, in the year 681, to the early part of the reign of Richard II., together with a calendar of donations and benefactions. It treats principally of the affairs of the monastery, but occasionally matters of general history are introduced. Its authorship has generally been assigned to Walter Froucester the twentieth abbot, but without any foundation.

34. Alexandri Neckam de Naturis Rerum libri duo; with Neckam's Poem, De Laudibus Divinæ Sapientiæ. *Edited by* Thomas Wright, Esq., M.A. 1863.

Neckam was a man who devoted himself to science, such as it was in the twelfth centuary. In the "De Naturis Rerum" are to be found what may be called the rudiments of many sciences mixed up with much error and ignorance. Neckham was not thought infallible, even by his contemporaries, for Roger Bacon remarks of him, "this Alexander in many things wrote what was true and useful; "but he neither can nor ought by just title to be reckoned among authorities." Neckam, however, had sufficient independence of thought to differ from some of the schoolmen who in his time considered themselves the only judges of literature. He had his own views in morals, and in giving us a glimpse of them, as well as of his other opinions, he throws much light upon the manners, customs, and general tone of thought prevalent in the twelfth century. The poem entitled "De Laudibus Divinæ Sapientiæ" appears to be a metrical paraphrase or abridgment of the "De Naturis Rerum." It is written in the elegiac metre, and though there are many lines which violate classical rules, it is, as a whole, above the ordinary standard of mediæval Latin.

35. Leechdoms, Wortcunning, and Starcraft of Early England; being a Collection of Documents illustrating the History of Science in this Country before the Norman Conquest. Vols. I., II., and III. *Collected and edited by* the Rev. T. Oswald Cockayne, M.A., of St. John's College, Cambridge, 1864–1866.

This work illustrates not only the history of science, but the history of superstition. In addition to the information bearing directly upon the medical skill and medical faith of the times, there are many passages which incidentally throw light upon the general mode of life and ordinary diet. The volumes are interesting

not only in their scientific, but also in their social aspect. The manuscripts from which they have been printed are valuable to the Anglo-Saxon scholar for the illustrations they afford of Anglo-Saxon orthography.

36. Annales Monastici. Vol. I.:—Annales de Margan, 1066–1232; Annales de Theokesberia, 1066–1263; Annales de Burton, 1004–1263. Vol. II.:—Annales Monasterii de Wintonia. 519–1277; Annales Monasterii de Waverleia, 1–1291. Vol. III.:—Annales Prioratus de Dunstaplia, 1–1297. Annales Monasterii de Bermundeseia, 1042–1432. Vol. IV.:—Annales Monasterii de Oseneia, 1016–1347; Chronicon vulgo dictum Chronicon Thomæ Wykes, 1066–1289; Annales Prioratus de Wigornia, 1–1377. Vol. V.:—Index and Glossary. *Edited by* Henry Richards Luard, M.A., Fellow and Assistant Tutor of Trinity College, and Registrary of the University, Cambridge. 1864–1869.

The present collection of Monastic Annals embraces all the more important chronicles compiled in religious houses in England during the thirteenth century. These distinct works are ten in number. The extreme period which they embrace ranges from the year 1 to 1432, although they refer more especially to the reigns of John, Henry III., and Edward I. Some of these narratives have already appeared in print, but others are printed for the first time.

37. Magna Vita S. Hugonis Episcopi Lincolniensis. From MSS. in the Bodleian Library, Oxford, and the Imperial Library, Paris. *Edited by* the Rev. James F. Dimock, M.A., Rector of Barnburgh, Yorkshire. 1864.

This work contains a number of very curious and interesting incidents, and being the work of a contemporary, is very valuable, not only as a truthful biography of a celebrated ecclesiastic, but as the work of a man, who, from personal knowledge, gives notices of passing events, as well as of individuals who were then taking active part in public affairs. The author, in all probability, was Adam Abbot of Evesham. He was domestic chaplain and private confessor of Bishop Hugh, and in these capacities was admitted to the closest intimacy. Bishop Hugh was Prior of Witham for 11 years before he became Bishop of Lincoln. His consecration took place on the 21st September 1186; he died on the 16th of November 1200; and was canonized in 1220.

38. Chronicles and Memorials of the Reign of Richard the First. Vol. I.:—Itinerarium Peregrinorum et Gesta Regis Ricardi. Vol. II.:—Epistolæ Cantuarienses; the Letters of the Prior and Convent of Christ Church, Canterbury; 1187 to 1199. *Edited by* William Stubbs, M.A., Vicar of Navestock, Essex, and Lambeth Librarian. 1864–1865.

The authorship of the Chronicle in Vol. I., hitherto ascribed to Geoffrey Vinesauf, is now more correctly ascribed to Richard, Canon of the Holy Trinity of London. The narrative extends from 1187 to 1199; but its chief interest consists in the minute and authentic narrative which it furnishes of the exploits of Richard I., from his departure from England in Decembar 1189 to his death in 1199. The author states in his prologue that he was an eye-witness of much that he records; and various incidental circumstances which occur in the course of the narrative confirm this assertion.

The letters in Vol. II., written between 1187 and 1199, are of value as furnishing authentic materials for the history of the ecclesiastical condition of England during the reign of Richard I. They had their origin in a dispute which arose from the attempts of Baldwin and Hubert, archbishops of Canterbury, to found a college of secular canons, a project which gave great umbrage to the monks of Canterbury, who saw in it a design to supplant them in their function of metropolitan chapter. These letters are printed, for the first time, from a MS. belonging to the archiepiscopal library at Lambeth.

39. Recueil des Croniques et anchiennes Istories de la Grant Bretaigne a present nomme Engleterre, par Jehan de Waurin. Vol. I. Albina to 688. Vol. II., 1399–1422. Vol. III., 1422–1431. *Edited by* Sir William Hardy, F.S.A. 1864–1879. Vol. IV. 1431–1443. *Edited by* Sir William Hardy, F.S.A., and Edward L. C. P. Hardy, Esq., F.S.A., of Lincoln's Inn, Barrister-at-law. 1884.

40. A Collection of the Chronicles and ancient Histories of Great Britain, now called England, by John de Wavrin. Albina to 688. (Translation

of the preceding Vol. I.) *Edited and translated by* Sir WILLIAM HARDY, F.S.A. 1864.

This curious chronicle extends from the fabulous period of history down to the return of Edward IV. to England in the year 1471 after the second deposition of Henry VI. The manuscript from which the text of the work is taken is preserved in the Imperial Library at Paris, and is believed to be the only complete and nearly contemporary copy in existence. The work, as originally bound, was comprised in six volumes, since rebound in morocco in 12 volumes, folio maximo, vellum, and is illustrated with exquisite miniatures, vignettes, and initial letters. It was written towards the end of the fifteenth century, having been expressly executed for Louis de Bruges, Seigneur de la Gruthuyse and Earl of Winchester, from whose cabinet it passed into the library of Louis XII. at Blois.

41. POLYCHRONICON RANULPHI HIGDEN, with Trevisa's Translation. Vols. I. and II. *Edited by* CHURCHILL BABINGTON, B.D., Senior Fellow of St. John's College, Cambridge. Vols. III., IV., V., VI., VII., VIII., and IX. *Edited by* the Rev. JOSEPH RAWSON LUMBY, D.D., Norrisian Professor of Divinity, Vicar of St. Edward's, Fellow of St. Catharine's College, and late Fellow of Magdalene College, Cambridge. 1865–1886.

This is one of the many mediæval chronicles which assume the character of a history of the world. It begins with the creation, and is brought dowu to the author's own time, the reign of Edward III. Prefixed to the historical portion, is a chapter devoted to geography, in which is given a description of every known land. To say that the Polychronicon was written in the fourteenth century is to say that it is not free from inaccuracies. It has, however, a value apart from its intrinsic merits. It enables us to form a very fair estimate of the knowledge of history and geography which well-informed readers of the fourteenth and fifteenth centuries possessed, for it was then the standard work on general history.

The two English translations, which are printed with the original Latin, afford interesting illustrations of the gradual change of our lauguage, for one was made in the fourteenth century, the other in the fifteenth. The differences between Trevisa's version and that of the unknown writer are often considerable.

42. LE LIVERE DE REIS DE BRITTANIE E LE LIVERE DE REIS DE ENGLETERE. *Edited by* JOHN GLOVER, M.A., Vicar of Brading, Isle of Wight, formerly Librarian of Trinity College, Cambridge. 1865.

These two treatises, though they cannot rank as independent narratives, are nevertheless valuable as careful abstracts of previous historians, especially "Le Livere de Reis de Engletere." Some various readings are given which are interesting to the philologist as instances of semi-Saxonized French. It is supposed that Peter of Ickham was the supposed author.

43. CHRONICA MONASTERII DE MELSA AB ANNO 1150 USQUE AD ANNUM 1406. Vols. I., II., and III. *Edited by* EDWARD AUGUSTUS BOND, Esq., Assistant-Keeper of Manuscripts, and Egerton Librarian, British Museum. 1866–1868.

The Abbey of Meaux was a Cistercian house, and the work of its abbot is both curious and valuable. It is a faithful and often minute record of the establishment of a religious community, of its progress in forming an ample revenue, of its struggles to maintain its acquisitions, and of its relations to the governing institutions of the country. In addition to the private affairs of the monastery, some light is thrown upon the public events of the time, which are however kept distinct, and appear at the end of the history of each abbot's administration. The text has been printed from what is said to be the autograph of the original compiler, Thomas de Burton, the nineteenth abbot.

44. MATTHÆI PARISIENSIS HISTORIA ANGLORUM, SIVE, UT VULGO DICITUR, HISTORIA MINOR. Vols. I., II., and III. 1067–1253. *Edited by* Sir FREDERIC MADDEN, K.H., Keeper of the Manuscript Department of British Museum. 1866–1869.

The exact date at which this work was written is, according to the chronicler, 1250. The history is of considerable value as an illustration of the period during which the author lived, and contains a good summary of the events which followed

the Conquest. This minor chronicle is, however, based on another work (also written by Matthew Paris) giving fuller details, which has been called the "Historia Major." The chronicle here published, nevertheless, gives some information not to be found in the greater history.

45. Liber Monasterii de Hyda: a Chronicle and Chartulary of Hyde Abbey, Winchester, 455–1023. *Edited, from a Manuscript in the Library of the Earl of Macclesfield, by* Edward Edwards, Esq. 1866.

The "Book of Hyde" is a compilation from much earlier sources which are usually indicated with considerable care and precision. In many cases, however, the Hyde Chronicler appears to correct, to qualify, or to amplify—either from tradition or from sources of information not now discoverable—the statements, which, in substance, he adopts. He also mentions, and frequently quotes from writers whose works are either entirely lost or at present known only by fragments. There is to be found, in the "Book of Hyde," much information relating to the reign of King Alfred which is not known to exist elsewhere. The volume contains some curious specimens of Anglo-Saxon and Mediæval English.

46. Chronicon Scotorum: a Chronicle of Irish Affairs, from the Earliest Times to 1135; and Supplement, containing the Events from 1141 to 1150. *Edited, with Translation, by* William Maunsell Hennessy, Esq., M.R.I.A. 1866.

There is, in this volume, a legendary account of the peopling of Ireland and of the adventures which befell the various heroes who are said to have been connected with Irish history. The details are, however, very meagre both for this period and for the time when history becomes more authentic. The plan adopted in the chronicle gives the appearance of an accuracy to which the earlier portions of the work cannot have any claim. The succession of events is marked year by year, from A.M. 1599 to A.D. 1150. The principal events narrated in the later portion of the work are, the invasions of foreigners, and the wars of the Irish among themselves. The text has been printed from a MS. preserved in the library of Trinity College, Dublin, written partly in Latin, partly in Irish.

47. The Chronicle of Pierre de Langtoft, in French Verse, from the earliest Period to the Death of Edward I. Vols. I. and II. *Edited by* Thomas Wright, Esq., M.A. 1866–1868.

It is probable that Pierre de Langtoft was a canon of Bridlington, in Yorkshire, and lived in the reign of Edward I., and during a portion of the reign of Edward II. This chronicle is divided into three parts; in the first, is an abridgment of Geoffrey of Monmouth's "Historia Britonum;" in the second, a history of the Anglo-Saxon and Norman kings, to the death of Henry III.; in the third, a history of the reign of Edward I. The principal object of the work was apparently to show the justice of Edward's Scottish wars. The language is singularly corrupt, and a curious specimen of the French of Yorkshire.

48. The War of the Gaedhil with the Gaill, or The Invasions of Ireland by the Danes and other Norsemen. *Edited, with a Translation, by* James Henthorn Todd, D.D., Senior Fellow of Trinity College, and Regius Professor of Hebrew in the University, Dublin. 1867.

The work in its present form, in the editor's opinion, is a comparatively modern version of an undoubtedly ancient original. That it was compiled from contemporary materials has been proved by curious incidental evidence. It is stated in the account given of the battle of Clontarf that the full tide in Dublin Bay on the day of the battle (23 April 1014) coincided with sunrise; and that the returning tide in the evening aided considerably in the defeat of the Danes. The fact has been verified by astronomical calculations, and the inference is that the author of the chronicle, if not an eye-witness, must have derived his information from eye-witnesses. The contents of the work are sufficiently described in its title. The story is told after the manner of the Scandinavian Sagas, with poems and fragments of poems introduced into the prose narrative.

49. Gesta Regis Henrici Secundi Benedicti Abbatis. Chronicle of the Reigns of Henry II. and Richard I., 1169–1192, known under the name of Benedict of Peterborough. Vols. I. and II. *Edited by* William Stubbs, M.A., Regius Professor of Modern History, Oxford, and Lambeth Librarian. 1867.

This chronicle of the reigns of Henry II. and Richard I., known commonly under the name of Benedict of Peterborough, is one of the best existing specimens of a class of historical compositions of the first importance to the student.

50. Monumenta Academica, or, Documents illustrative of Academical Life and Studies at Oxford (in Two Parts). *Edited by* the Rev. Henry Anstey, M.A., Vicar of St. Wendron, Cornwall, and lately Vice-Principal of St. Mary Hall, Oxford. 1868.

This work will supply materials for a History of Academical Life and Studies in the University of Oxford during the 13th, 14th, and 15th centuries.

51. Chronica Magistri Rogeri de Houedene. Vols. I., II., III., and IV. *Edited by* William Stubbs, M.A., Regius Professor of Modern History, and Fellow of Oriel College, Oxford. 1868–1871.

This work has long been justly celebrated, but not thoroughly understood until Mr. Stubbs' edition. The earlier portion, extending from 732 to 1148, appears to be a copy of a compilation made in Northumbria about 1161, to which Hoveden added little. From 1148 to 1169—a very valuable portion of this work—the matter is derived from another source, to which Hoveden appears to have supplied little, and not always judiciously. From 1170 to 1192 is the portion which corresponds with the Chronicle known under the name of Benedict of Peterborough (*see* No. 49); but it is not a copy, being sometimes an abridgment, at others a paraphrase; occasionally the two works entirely agree; showing that both writers had access to the same materials, but dealt with them differently. From 1192 to 1201 may be said to be wholly Hoveden's work; it is extremely valuable, and an authority of the first importance.

52. Willelmi Malmesbiriensis Monachi de Gestis Pontificum Anglorum Libri Quinque. *Edited, from William of Malmesbury's Autograph MS., by* N. E. S. A. Hamilton, Esq., of the Department of Manuscripts, British Museum. 1870.

William of Malmesbury's "Gesta Pontificum" is the principal foundation of English Ecclesiastical Biography, down to the year 1122. The manuscript which has been followed in this Edition is supposed by Mr. Hamilton to be the author's autograph, containing his latest additions and amendments.

53. Historic and Municipal Documents of Ireland, from the Archives of the City of Dublin, &c. 1172–1320. *Edited by* John T. Gilbert, Esq., F.S.A., Secretary of the Public Record Office of Ireland. 1870.

A collection of original documents, elucidating mainly the history and condition of the municipal, middle, and trading classes under or in relation with the rule of England in Ireland,—a subject hitherto in almost total obscurity. Extending over the first hundred and fifty years of the Anglo-Norman settlement, the series includes charters, municipal laws and regulations, rolls of names of citizens and members of merchant-guilds, lists of commodities with their rates, correspondence, illustrations of relations between ecclesiastics and laity; together with many documents exhibiting the state of Ireland during the presence there of the Scots under Robert and Edward Bruce.

54. The Annals of Loch Cé. A Chronicle of Irish Affairs, from 1041 to 1590. Vols. I. and II. *Edited, with a Translation, by* William Maunsell Hennessy, Esq., M.R.I.A. 1871.

The original of this chronicle has passed under various names. The title of "Annals of Loch Cé" was given to it by Professor O'Curry, on the ground that it was transcribed for Brian Mac Dermot, an Irish chieftain, who resided on the island in Loch Cé, in the county of Roscommon. It adds much to the materials for the civil and ecclesiastical history of Ireland; and contains many curious references to English and foreign affairs, not noticed in any other chronicle.

55. Monumenta Juridica. The Black Book of the Admiralty, with Appendices. Vols. I., II., III., and IV. *Edited by* Sir Travers Twiss, Q.C., D.C.L. 1871–1876.

This book contains the ancient ordinances and laws relating to the navy, and was probably compiled for the use of the Lord High Admiral of England. Selden calls it the "jewel of the Admiralty Records." Prynne ascribes to the Black Book the same authority in the Admiralty as the Black and Red Rocks have in the Court of Exchequer, and most English writers on maritime law recognize its importance.

56. Memorials of the Reign of Henry VI.:—Official Correspondence of Thomas Bekynton, Secretary to Henry VI., and Bishop of Bath and Wells. *Edited, from a MS. in the Archiepiscopal Library at Lambeth, with an Appendix of Illustrative Documents, by* the Rev. George Williams, B.D., Vicar of Ringwood, late Fellow of King's College, Cambridge. Vols. I. and II. 1872.

These curious volumes are of a miscellaneous character, and were probably compiled under the immediate direction of Beckynton before he had attained to the Episcopate. They contain many of the Bishop's own letters, and several written by him in the King's name; also letters to himself while Royal Secretary, and others addressed to the King. This work elucidates some points in the history of the nation during the first half of the fifteenth century.

57. Matthæi Parisiensis, Monachi Sancti Albani, Chronica Majora. Vol. I. The Creation to A.D. 1066. Vol. II. A.D. 1067 to A.D. 1216. Vol. III. A.D. 1216 to A.D. 1239. Vol. IV. A.D. 1240 to A.D. 1247. Vol. V. A.D. 1248 to A.D. 1259. Vol. VI. Additamenta. Vol. VII. Index. *Edited by* Henry Richards Luard, D.D., Fellow of Trinity College, Registrary of the University, and Vicar of Great St. Mary's, Cambridge. 1872–1884.

This work contains the "Chronica Majora" of Matthew Paris, one of the most valuable and frequently consulted of the ancient English Chronicles. It is published from its commencement, for the first time. The editions by Archbishop Parker, and William Wats, severally begin at the Norman Conquest.

58. Memoriale Fratris Walteri de Coventria.—The Historical Collections of Walter of Coventry. Vols. I. and II. *Edited, from the MS. in the Library of Corpus Christi College, Cambridge, by* William Stubbs, M.A., Regius Professor of Modern History, and Fellow of Oriel College, Oxford. 1872–1873.

This work, now printed in full for the first time, has long been a *desideratum* by Historical Scholars. The first portion, however, is not of much importance, being only a compilation from earlier writers. The part relating to the first quarter of the thirteenth century is the most valuable and interesting.

59. The Anglo-Latin Satirical Poets and Epigrammatists of the Twelfth Century. Vols. I. and II. *Collected and edited by* Thomas Wright, Esq., M.A., Corresponding Member of the National Institute of France (Académie des Inscriptions et Belles-Lettres). 1872

The Poems contained in these volumes have long been known and appreciated as the best satires of the age in which their authors flourished, and were deservedly popular during the 13th and 14th centuries.

60. Materials for a History of the Reign of Henry VII., from original Documents preserved in the Public Record Office. Vols. I. and II. *Edited by* the Rev. William Campbell, M.A., one of Her Majesty's Inspectors of Schools. 1873–1877.

These volumes are valuable as illustrating the acts and proceedings of Henry VII. on ascending the throne, and shadow out the policy he afterwards adopted.

61. Historical Papers and Letters from the Northern Registers. *Edited by* James Raine, M.A., Canon of York, and Secretary of the Surtees Society. 1873.

The documents in this volume illustrate, for the most part, the general history of the north of England, particularly in its relation to Scotland.

62. Registrum Palatinum Dunelmense. The Register of Richard de Kellawe, Lord Palatine and Bishop of Durham; 1311–1316. Vols. I., II., III., and IV. *Edited by* Sir Thomas Duffus Hardy, D.C.L., Deputy Keeper of the Public Records. 1873–1878.

Bishop Kellawe's Register contains the proceedings of his prelacy, both lay and ecclesiastical, and is the earliest Register of the Palatinate of Durham.

63. Memorials of Saint Dunstan, Archbishop of Canterbury. *Edited, from various MSS., by* William Stubbs, M.A., Regius Professor of Modern History, and Fellow of Oriel College, Oxford. 1874.

This volume contains several lives of Archbishop Dunstan, one of the most celebrated Primates of Canterbury. They open various points of Historical and Literary interest, without which our knowledge of the period would be more incomplete than it is at present.

64. Chronicon Angliæ, ab Anno Domini 1328 usque ad Annum 1388, Auctore Monacho quodam Sancti Albani. *Edited by* Edward Maunde Thompson, Esq., Barrister-at-Law, and Assistant-Keeper of the Manuscripts in the British Museum. 1874.

This chronicle gives a circumstantial history of the close of the reign of Edward III. which has hitherto been considered lost.

65. Thómas Saga Erkibyskups. A Life of Archbishop Teomas Becket, in Icelandic. Vols. I. and II. *Edited, with English Translation, Notes, and Glossary by* M. Eiríkr Magnússon, M.A., Sub-Librarian of the University Library, Cambridge. 1875–1884.

This work is derived from the Life of Becket written by Benedict of Peterborough, and apparently supplies the missing portions in Benedict's biography.

66. Radulphi de Coggeshall Chronicon Anglicanum. *Edited by* the Rev. Joseph Stevenson, M.A. 1875.

This volume contains the "Chronicon Anglicanum," by Ralph of Coggleshall, the "Libellus de Expugnatione Terræ Sanctæ per Saladinum," usually ascribed to the same author, and other pieces of an interesting character.

This publication comprises all contemporary materials for the history of Archbishop Thomas Becket. The first volume contains the life of that celebrated man, and the miracles after his death, by William, a monk of Canterbury. The second, the life by Benedict of Peterborough; John of Salisbury; Alan of Tewkesbury; and Edward Grim. The third, the life by William Fitzstephen; and Herbert of Bosham. The fourth, anonymous lives, Quadrilogus, &c. The fifth, sixth, and seventh, the Epistles, and known letters.

The Historical Works of Ralph de Diceto are some of the most valuable materials for British History. The Abbreviationes Chronicorum extend from the Creation to 1147, and the Ymagines Historiarum to 1201.

This Roll throws considerable light on the History of Ireland at a period little known. It seems the only document of the kind extant.

70. Henrici de Bracton de Legibus et Consuetudinibus Angliæ Libri Quinque in Varios Tractatus Distincti. Ad Diversorum et Vetustissimorum Codicum Collationem Typis Vulgati. Vols. I., II., III., IV., V., and VI. *Edited by* Sir Travers Twiss, Q.C., D.C.L. 1878–1883.

The Historical Works of Gervase of Canterbury are of great importance as regards the questions of Church and State, during the period in which he wrote. This work was printed by Twysden, in the "Historiæ Anglicanæ Scriptores X.," more than two centuries ago. The present edition has received critical examination and illustration.

74. Henrici Archidiaconi Huntendunensis Historia Anglorum. The History of the English, by Henry, Archdeacon of Huntingdon, from A.D. 55 to A.D. 1154, in Eight Books. *Edited by* Thomas Arnold, Esq., M.A., of University College, Oxford. 1879.

Henry of Huntingdon's work was first printed by Sir Henry Savile, in 1596, in his "Scriptores post Bedam," and reprinted at Frankfort in 1601. Both editions are very rare and inaccurate. The first five books of the History were published in 1848 in the "Monumenta Historica Britannica," which is out of print The present volume contains the whole of the manuscript of Huntingdon's History in eight books, collated with a manuscript lately discovered at Paris.

This Register, of which a complete copy is here printed for the first time, is among the most ancient, and certainly the most treasured, of the muniments of the Bishops of Salisbury. It derives its name from containing the statutes, rules, and orders made or compiled by S. Osmund, to be observed in the Cathedral and diocese of Salisbury. The first 19 folios contain the "Consuetudinary," the exposition, as regards ritual, of the "Use of Sarum."

One Chartulary is in the Bodleian Library, Oxford, together with that of Dunbrody; the second is in the British Museum.

WORKS PUBLISHED IN PHOTOZINCOGRAPHY.

DOMESDAY BOOK, or the GREAT SURVEY OF ENGLAND OF WILLIAM THE CONQUEROR, 1086; fac-simile of the Part relating to each county, separately (with a few exceptions of double counties). Photozincographed, by Her Majesty's Command, at the Ordnance Survey Office, Southampton, Colonel Sir HENRY JAMES, R.E., F.R.S., &c., DIRECTOR-GENERAL of the ORDNANCE SURVEY, under the Superintendence of W. BASEVI SANDERS, Esq., Assistant Keeper of Her Majesty's Records. 35 Parts, imperial quarto and demy quarto (1861–1863), boards. *Price* 8*s.* to 1*l.* 3*s.* each Part, according to size; or, bound in 2 Vols., 20*l.* (*The edition in two volumes is out of print.*)

This important and unique survey of the greater portion of England* is the oldest and most valuable record in the national archives. It was commenced about the year 1084 and finished in 1086. Its compilation was determined upon at Gloucester by William the Conqueror, in council, in order that he might know what was due to him, in the way of tax, from his subjects, and that each at the same time might know what he had to pay. It was compiled as much for their protection as for the benefit of the sovereign. The nobility and people had been grievously distressed at the time by the king bringing over large numbers of French and Bretons, and quartering them on his subjects, "each "according to the measure of his land," for the purpose of resisting the invasion of Cnut, King of Denmark, which was apprehended. The Commissioners appointed to make the survey were to inquire the name of each place; who held it in the time of King Edward the Confessor; the present possessor; how many hides were in the manor; how many ploughs were in the demesne; how many homagers; how many villeins; how many cottars; how many serving men; how many free tenants; how many tenants in soccage; how much wood, meadow, and pasture; the number of mills and fish ponds; what had been added or taken away from the place; what was the gross value in the time of Edward the Confessor; the present value; and how much each free man or soc-man had, and whether any advance could be made in the value. Thus could be ascertained who held the estate in the time of King Edward; who then held it; its value in the time of the late King; and its value as it stood at the formation of the survey. So minute was the survey, that the writer of the contemporary portion of the Saxon Chronicle records, with some asperity—"So very narrowly he caused it to be "traced out, that there was not a single hide, nor one virgate of land, nor even, "it is shame to tell, though it seemed to him no shame to do, an ox, nor a cow, "nor a swine was left, that was not set down."

Domesday Survey is in two parts or volumes. The first, in folio, contains the counties of Bedford, Berks, Bucks, Cambridge, Chester, and Lancaster, Cornwall, Derby, Devon, Dorset, Gloucester, Hants, Hereford, Herts, Huntingdon, Kent, Leicester and Rutland, Lincoln, Middlesex, Northampton, Nottingham, Oxford, Salop, Somerset, Stafford, Surrey, Sussex, Warwick, Wilts, Worcester, and York. The second volume, in quarto, contains the counties of Essex, Norfolk and Suffolk.

Domesday Book was printed *verbatim et literatim* during the last century, in consequence of an address of the House of Lords to King George III. in 1767. It was not, however, commenced until 1773, and was completed early in 1783. In 1860, Her Majesty's Government, with the concurrence of the Master of the Rolls, determined to apply the art of photozincography to the production of a fac-simile of Domesday Book, under the superintendence of Colonel Sir Henry James, R.E., Director-General of the Ordnance Survey, Southampton. The fac-simile was completed in 1863.

* For some reason left unexplained, many parts were left unsurveyed; Northumberland, Cumberland, Westmoreland, and Durham, are not described in the survey; nor does Lancashire appear under its proper name; but Furness, and the northern part of Lancashire, as well as the south of Westmoreland, with a part of Cumberland, are included within the West Riding of Yorkshire. That part of Lancashire which lies between the Ribble and Mersey, and which at the time of the survey comprehended 688 manors, is joined to Cheshire. Part of Rutland is described in the counties of Northampton and Lincoln.

BASEVI SANDERS, Assistant Keeper of Her Majesty's Records. *Price*, each Part, with translations and notes, double foolscap folio, 16*s*.

The fourth Part concludes the series, and comprises a number of documents taken from the originals belonging to the Constable of the Tower of London; also several records illustrative of the Gunpowder Plot, and a woodcut containing portraits of Mary Queen of Scots and James VI., circulated by their adherents in England, 1580–3.

The MSS. represented in it, range from A.D. 697 to A.D. 1161, being charters, wills, deeds, and reports of Synodal transactions during the reigns of Kings Wihtred of Kent, Offa, Eardwulf, Coenwulf, Cuthred, Beornwulf, Æthelwulf, Ælfred, Eadward the Elder, Eadmund, Eadred, Queen Eadgifu, and Kings Eadgar, Æthelred the Second, Cnut, Henry the First, and Henry the Second. This work forms a comprehensive Palæographic Series for Ireland. It furnishes characteristic specimens of the documents which have come down from each of the classes which, in past ages, formed principal elements in the population of Ireland, or exercised an influence in her affairs. With these reproductions are combined fac-similes of writings connected with eminent personages or transactions of importance in the annals of the country to the early part of the eighteenth century.

The specimens have been reproduced as nearly as possible in accordance with the originals, in dimensions, colouring, and general appearance. Characteristic examples of styles of writing and caligraphic ornamentation are, so far as practicable, associated with subjects of historic and linguistic interest. Descriptions of the various manuscripts are given by the Editor in the Introduction. The contents of the specimens are fully elucidated and printed in the original languages, opposite to the Fac-similes—line for line—without contractions—thus facilitating reference and aiding effectively those interested in palæographic studies.

In the work are also printed in full, for the first time, many original and important historical documents.

Part I. commences with the earliest Irish MSS. extant.

Part II.: From the Twelfth Century to A.D. 1299.

Part III.: From A.D. 1300 to end of reign of Henry VIII.

Part IV. 1.: From reign of Edward VI. to that of James I.

In Part IV. 2.—the work is carried down to the early part of the eighteenth century, with Index to the entire publication.

(*This work is sold also by Letts, Son, & Co., Limited,* 33, *King William Street; E. Stanford, Charing Cross; J. Wyld, Charing Cross; B. Quaritch,* 15, *Piccadilly; W. & A. K. Johnston, Edinburgh; and Hodges, Figgis & Co., Dublin.*)
